

## DISCOVER KYOCERA AVX PRODUCTS

FIND A SUITABLE SOLUTION FOR YOUR APPLICATION

Available on the KYOCERA AVX website, the new 3-D interactive application provides users with several different intuitive ways to access a comprehensive and visually engaging suite of product information, including application examples extending across seven market segments; interactive, animated, and annotated digital, 3-D product renderings; and relevant product pages, datasheets, and catalogs.

### FEATURES

- ▶ **Interior Snapshots** - allows users to virtually enter and navigate through the selected interiors.
- ▶ **Seven Market Segment Buttons** - Lighting, Industrial Handheld Devices, Smart Grid, Commercial Building, Transportation, Medical, and Industrial Machines and Controls
- ▶ **Menu** - organized by connection style – board-to-board, wire-to-board, and wire-to-wire and featuring direct links to interactive, animated, and annotated digital, 3-D product renderings

# KYOCERA AVX INTERACTIVE 3D MAP

Each of the seven market segment buttons in the color-coded navigation menu corresponds to a colored dot on the digitally rendered hospital to provide some visual context, and hovering over a selection (e.g., Smart Grid) causes application examples (e.g., Sensors, Meters, Monitoring, Communication, Energy Storage) to pop up onscreen.

## MARKET SEGMENTS

### MEDICAL

- Patient Monitoring
- Portable Devices
- Record Systems
- Test Equipment
- Position Control

### SMART GRID

- Sensors
- Meters
- Monitoring
- Communication
- Energy Storage

### LIGHTING

- Street Lighting
- Indoor Strip Lighting
- Power Lighting
- Signal Lighting
- Led Drivers

### COMMERCIAL BUILDING

- Security Detectors
- Fire Sensors
- Lighting Controls
- Smoke Detectors
- Door Sensors

### INDUSTRIAL MACHINES & CONTROLS

- Motors
- Drivers
- Sensors
- Temperature
- Motion

### INDUSTRIAL HANDHELD DEVICES

- Terminals
- Scanners
- Computers
- Data Recorders
- Barcode Readers

### TRANSPORTATION

- Automotive
- Emergency Lighting
- Sensors
- Signaling
- Elevators
